[fuel tank drawing.pdf](#)

I received the diesel fuel tank drawings and specifications from Mid-America Steel Drum company, Inc., Oak Creek, Wisconsin. The tank specifications state a double wall above ground tank.

Mr. Entzminger,

As discussed, please find attached drawings of the diesel fuel tank located at the Oak Creek, Wisconsin Container Life Cycle Management LLC ("CLCM") facility.

The facility has confirmed that the tank is an aboveground double-walled tank and has a capacity of 4,000 gallons. The tank was installed in approximately 1999.

Please let me know if you have any questions or if you need anything further.

Best,

Amanda
